

Best Practices Checklist for GDPR and CCPA

- Did you inform all website visitors that your website uses cookies? Does the message require overt action to clear?
- Is your privacy policy linked in the footer of your website?
- Is your contact information easy to find?
- Is your privacy policy linked everywhere you collect visitor data?
- Is your SSL certificate up to date? (HTTPS://)
- Are you using spelling/robot protection on all forms?
- Is your privacy policy up to date?
- Is your Data Protection Officer contact information current and accurate?
- Is your Data Protection Officer well-informed of current marketing and data collection practices?
- Is your website security software and content management system up to date, including all plug-ins?
- Are links to third party websites still active and accurate?
- Has stored data that is no longer valuable been removed from the Web server?
- Are you compliant with industry standards, HIPAA and PCI, if relevant?
